Deepest stacked discount found on Booking.com (15% intended)

92.8
RevPAR index vs comp set (100 = fair share), down from 94.6

Prepared by **Muhammed Ammar** · Hotel Revenue Manager

Sample report — fictional property, illustrative data.

01 · EXECUTIVE SUMMARY

Demand is there. **Rate and channel discipline are not.**

Over the last 12 months Casa Lumen grew RevPAR **6.5% to €113.1**, but its comp set grew **8.6%** — the hotel lost fair share in a strong Porto market (RGI 94.6 → 92.8). The gap is rate, not demand: occupancy is within one point of the comp set (MPI 98.8) while ADR sits **6% below it** (ARI 93.9), driven by stacked OTA discounts, a static BAR on sold-out event dates and wholesale rates leaking below the direct price. At the same time direct share slipped from 25% to 22%, and Booking.com now nets less per room night (**€120.9**) than the wholesale contract (€128.0).

REVPAR (TTM)	REVPAR INDEX (RGI)	NET REVPAR	DIRECT SHARE
€113.1	92.8	€99.2	22%
▲ +6.5% vs LY · comp set ▲ +8.6%	▼ −1.8 pts vs LY	after €243k distribution cost	▼ −3 pp vs LY

Top 5 findings by annual € impact

mid-case, net of distribution cost

1	**BAR stays flat on compression dates** São João and NYE priced like ordinary weekends; 38 dates sold out ≥ 21 days ahead.	CRITICAL	€20k
2	**Booking.com promotions stack to 31% off** Genius + Mobile rate + Basic Deal compound on the flexible rate; 1,620 room nights affected.	CRITICAL	€16k
3	**Wholesale rates leak to metasearch below direct** Undercut on 23 of 90 shopped dates, on average 17% below the official site.	CRITICAL	€12k
4	**Min-stay rules strand one-night gaps** 212 orphan nights on shoulder dates where MinLOS 2 stayed active inside 7 days.	HIGH	€8k
5	**Channel-manager mapping errors** Deluxe Balcony closed on Expedia for 41 nights; Family Suite double-mapped → 9 walks.	CRITICAL	€7k

Where the upside sits · 11 findings, range €62–104k — **€86k / year**

Critical · 4 findings · €55k | High · 4 · €24k | Medium · 3 · €7k

What to do in the next 30 days

€74k of the €86k needs no new tools or spend

1. **Cap the Booking.com discount stack at 19% (Genius + Mobile only) and take Genius levels 2–3 off the non-refundable rate**
   Week 1 · Revenue manager · **€21k**
2. **Fix the channel-manager mapping and reconcile inventory across all four room types**
   Week 1 · Hotel front office + RM · **€7k**
3. **Close the wholesale leak: test-book, shut sub-agent IDs, add a rate-integrity clause**
   Week 2 · Hotel GM · **€12k**
4. **Replace the flat seasonal BAR with a 6-level, pace-driven ladder and a 12-month event calendar**
   Weeks 2–3 · Revenue manager · **€20k**
5. **Auto-release MinLOS at D-7 and move the Expedia flexible rate to 48-hour cancellation**
   Weeks 3–4 · Revenue manager · **€14k**
6. **Weeks 5–12: direct-booking benefits, length-of-stay pricing, content refresh, allotment terms**
   See the 90-day plan on page 6 · **€12k**

02 · PERFORMANCE SNAPSHOT

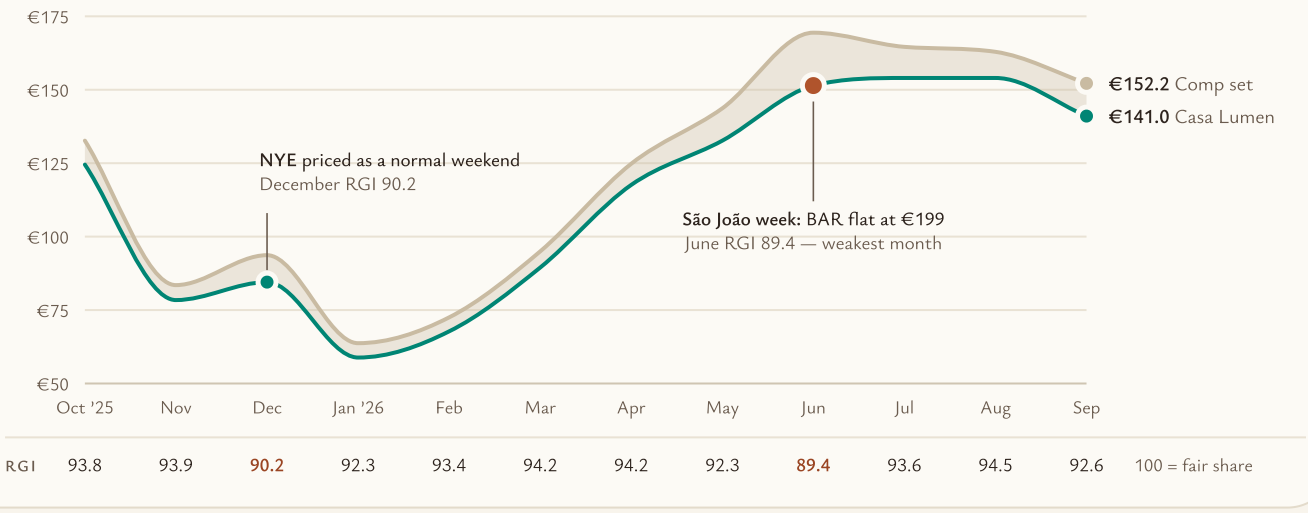

Occupancy kept pace. **Rate fell behind.**

Trailing 12 months (Oct 2025 – Sep 2026) vs the same period last year and vs a comp set of five independent 4★ boutique hotels within 1.2 km (Ribeira / Baixa).

METRIC	TTM 2025/26	LY 2024/25	CHANGE	COMP SET TTM	INDEX TTM	INDEX LY
Occupancy	76.5%	74.2%	▲ +2.3 pp	77.4%	98.8 MPI	97.6
ADR	€147.8	€143.1	▲ +3.3%	€157.4	93.9 ARI ▼	96.9

Monthly RevPAR vs comp set

€, Oct 2025 – Sep 2026

	Oct '25	Nov	Dec	Jan '26	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	
RGI	93.8	93.9	90.2	92.3	93.4	94.2	94.2	92.3	89.4	93.6	94.5	92.6	100 = fair share

Channel economics

TTM · bar = share of room nights, tick = last year

CHANNEL	ROOM-NIGHT SHARE (LY)		ADR	COMMISSION	COST / ROOM NIGHT	NET ADR
Booking.com	48% (45%)		€145.7	17%	€24.8	€120.9
Expedia	17% (17%)		€152.0	18%	€27.4	€124.6
Direct (web · phone)	22% (25%)		€161.0	4.5%*	€7.2	€153.8
Wholesale (2 partners)	13% (13%)		€128.0	≈20% off BAR**	≈ €32	€128.0
Total	13,404 room nights		€147.8	12.3% · €243k	€18.1	€129.7

* Booking engine, metasearch CPC and payment fees. ** Wholesale is booked net; its margin is embedded in the rate and not included in the 12.3%.

Rate, not volume

MPI rose +1.2 pts while ARI fell −3.0 pts: occupancy was bought with discount. Each ARI point is worth ≈ €20k of room revenue a year.

Peaks are under-priced

The two weakest months for RGI are June (89.4) and December (90.2) — exactly where demand is strongest and BAR stayed flat.

Mix is drifting to OTAs

Direct share −3 pp and Booking.com +3 pp lifted distribution cost to 12.3%; Booking.com now nets €7 less per night than wholesale.

03 · FINDINGS — 1 OF 2

Eleven issues, ranked by **priority and € impact.**

● CRITICAL leaking now / guest risk ● HIGH fix within 30 days ● MEDIUM optimisation € = annual net upside, mid-case

01 BAR stays flat on compression dates

● CRITICAL · Effort · Medium · **€20k** / yr

ISSUE BAR follows a fixed seasonal grid: every June weekend is €199 — including São João, which sold out 41 days before arrival. Price never moves when pace runs ahead of STLY.

WHY IT MATTERS 38 dates sold out ≥ 21 days ahead; on 31 of them BAR was ≥ 15% under the comp-set median. A conservative +€13 on ≈ 1,750 room nights = €22.8k gross, ≈ **€20k net**.

FIX 6-level BAR ladder (€129–289) triggered by OTB vs STLY and comp-set median; 12-month event calendar; daily review of compression dates inside 60 days.

Rate shop · Superior Double · BAR

STAY DATE	SOLD OUT	CASA L.	COMP	GAP
Sat 13 Jun	D-34	€199	€236	–16%
São João · 23 Jun	D-41	€199	€289	–31%
Sat 27 Jun	D-29	€199	€241	–17%
NYE · 31 Dec	71% OTB	€165	€238	–31%

02 Booking.com promotions stack to 31% off

● CRITICAL · Effort · Low · **€16k** / yr

ISSUE Genius (10%), Mobile rate (10%) and the "Autumn Escape" Basic Deal (15%) are all set to combine on the flexible rate, so they compound: 0.90 × 0.90 × 0.85 = **31.2% off BAR**.

WHY IT MATTERS 1,620 room nights sold at ≥ 28% off in the TTM. Capping the stack at 19% recovers ≈ €19 per night; after commission and a 40% demand response ≈ **€16k**.

FIX Set the Basic Deal not to combine, so no guest sees more than Genius + Mobile (19%); run deals only on need dates (D-14 to D-3); monthly promotion audit.

Extranet › Promotions › Active

PROMOTION	DISCOUNT	COMBINES	PRICE
BAR · flexible	—	—	€160.00
Genius level 1	10%	Yes	€144.00
Mobile rate	10%	Yes	€129.60
Basic Deal (Autumn)	15%	Yes	€110.16
Guest pays (Genius, on mobile)			**–31.2%**

03 Wholesale rates leak to metasearch below direct

● CRITICAL · Effort · Medium · **€12k** / yr

ISSUE Static net rates given to Wholesaler B are resold room-only by unknown sub-agents and appear on metasearch. Leakage found on 23 of 90 shopped dates, on average 17% below the official site.

WHY IT MATTERS ≈ 460 room nights a year diverted from direct (net €153.8) to leaked net rate (€128) = **€12k**, plus Booking.com parity alerts that cut ranking.

FIX Test-book to identify sub-agent IDs; rate-integrity and package-only clause in both contracts; move from static net to dynamic BAR –20% with a floor.

Metasearch · Sat 14 Nov 2026 · 1 night

SELLER	SUPERIOR DOUBLE
Unknown reseller (wholesale)	**€129**
Official site	€156
Booking.com	€158
Expedia	€158

Direct is undercut by €27 (–17%) on the guest's first screen.

04 Channel-manager mapping: closed room type and overbookings

● CRITICAL · Effort · Low · **€7k** / yr

ISSUE Deluxe Balcony is not mapped on Expedia, so it shows closed whatever the PMS holds. Family Suite is mapped to two Booking.com room types drawing on one pool.

WHY IT MATTERS 41 nights closed with ≥ 2 rooms free (≈ 46 room nights, €5.7k net) plus 9 walked guests at ≈ €150 each ≈ **€7k** — and four 1-star reviews.

FIX Map DLX-BAL on Expedia; one OTA room type per PMS type per channel; weekly mapping and inventory reconciliation; overbooking alert.

Channel manager › Room mapping

PMS ROOM TYPE	RMS	BOOKING.COM	EXPEDIA
Superior Double	22	Mapped	Mapped
Deluxe Balcony	14	Mapped	Not mapped
Junior Suite	8	Mapped	Mapped
Family Suite	4	Mapped ×2	Mapped

05 Min-stay rules strand one-night gaps

● HIGH · Effort · Low · **€8k** / yr

ISSUE MinLOS 2 is loaded on shoulder weekends months ahead and never lifted, so single nights between stays cannot be sold — even three days out.

WHY IT MATTERS 212 orphan room nights in the TTM. Selling ~35% of them at €108 net ≈ **€8k**.

FIX Auto-lift MinLOS to 1 at D-7 (D-14 for gaps); MinLOS on arrival, not stay-through; gap-night rule in the channel manager.

Availability · 15–19 Oct 2026 · at D-3

Thu 15	Fri 16	Sat 17	Sun 18	Mon 19
3 left	Full	Full	4 left	6 left
Min 1	Min 2	Min 2	Min 2	Min 1

Sun 18: 4 rooms unsellable for a 1-night stay three days out.

03 · FINDINGS — 2 OF 2

Conversion, **direct share** and content.

06 Expedia cancellation policy stricter than every competitor

HIGH · Effort · Low · **€6k** / yr

ISSUE The "flexible" Expedia rate plan requires cancellation 7 days before arrival; the comp set offers 24–72 hours. Expedia conversion is 1.9% vs a 3.1% comp-set benchmark.

WHY IT MATTERS Closing half the conversion gap on shoulder dates ≈ +48 incremental room nights after displacement ≈ **€6k**.

FIX Flexible plan to 48 h (72 h Jun–Sep); keep 7 days only for 5+ rooms; add a separate non-refundable plan at −10%.

Rate shop · flexible rate · cancellation

HOTEL	FREE CANCELLATION
Casa Lumen	until 7 days before
Comp A · Comp B	24 h · 48 h
Comp C · Comp D · Comp E	48 h · 72 h · 48 h

07 Genius levels 2–3 discount the non-refundable rate

HIGH · Effort · Low · **€5k** / yr

ISSUE Genius level 2–3 discounts (15–20%) apply on top of the non-refundable rate, which is already 12% below BAR — up to 29.6% off for a guest who was never going to cancel.

WHY IT MATTERS ≈ 480 room nights a year. Keeping only level 1 (10%) on non-refundable recovers ≈ €12.50 a night ≈ **€5k** net.

FIX Exclude the non-refundable plan from Genius levels 2–3; keep them on the flexible rate where they drive conversion.

Extranet › Genius › Rate plans

RATE PLAN	PRICE	GENIUS L3	TOTAL
Flexible (BAR)	€160.00	€128.00	−20.0%
Non-refund. (−12%)	**€140.80**	**€112.64**	−29.6%

08 No reason to book direct

HIGH · Effort · Medium · **€5k** / yr

ISSUE The website is more expensive than Booking.com for Genius members and offers no member rate, perk or best-rate promise. Direct share fell from 25% to 22%.

WHY IT MATTERS Moving 2 pp of OTA room nights (≈ 270) to direct saves ≈ €18.50 each in acquisition cost ≈ **€5k**.

FIX Member rate −8% behind an email sign-in; welcome drink + late check-out; best-rate banner and price-comparison widget; free booking links on metasearch.

Guest view · Sat 7 Nov · Superior Double

CHANNEL	PRICE	EXTRAS
Official site	€156	none
Booking.com (Genius)	€144	free cancel
Expedia (member)	€150	points

09 No length-of-stay pricing

MEDIUM · Effort · Low · **€3k** / yr

ISSUE No rate plan rewards longer stays. 34% of stays are one night (comp set ≈ 24%); average length of stay is 2.1 nights vs 2.6.

WHY IT MATTERS Shifting ≈ 6% of shoulder-month stays to 3+ nights fills Sunday–Wednesday and cuts turnovers ≈ **€3k** net incl. housekeeping savings.

FIX 3+ nights −5%, 5+ nights −8%, Nov–Mar and Sun–Thu arrivals only; never on compression dates.

PMS · stays by length · TTM

LENGTH OF STAY	CASA LUMEN	COMP SET
1 night	34%	24%
2 nights	31%	30%
3+ nights	35%	46%

10 Thin room content and photos on the OTAs

MEDIUM · Effort · Medium · **€2k** / yr

ISSUE 16 photos vs a comp-set average of 41; Family Suite has no room-specific images; descriptions in English only.

WHY IT MATTERS The highest-ADR room types convert worst. +5% conversion on Junior and Family Suites ≈ **€2k**.

FIX 25+ new images covering every room type; complete facilities; descriptions in PT, ES, FR and DE; quarterly content check.

Extranet › Property page score

ITEM	CASA LUMEN	COMP AVG
Page score	78%	96%
Photos · Family Suite	16 · 0	41 · 6+
Description languages	1	5

11 Wholesale allotments released too late

MEDIUM · Effort · Low · **€2k** / yr

ISSUE Six allotment rooms carry a 3-day release, so unused rooms return when only last-minute, discounted demand is left.

WHY IT MATTERS 54 room nights came back inside 72 h; 31 went unsold. A 14/7-day release sells ≈ 17 of them at ≈ €125 ≈ **€2k**.

FIX 14-day release in peak, 7-day in shoulder; zero allotment on the top 40 compression dates.

Contracts · allotment returns · TTM

PARTNER	ROOMS	RETURNED <72 H	UNSOLD
Wholesaler A	4	31	18
Wholesaler B	2	23	13

04 · 90-DAY ACTION PLAN

05 · METHOD & NEXT STEPS

How the audit was done

STEP 1
Extranet & channel review
Booking.com Extranet, Expedia Partner Central and channel-manager mapping: 34 rate plans and 11 promotions checked line by line.

STEP 2
90-day rate shop
Casa Lumen + 5 comp-set hotels across Booking.com, Expedia, brand sites and metasearch, twice weekly — ≈ 13,000 rate points.

STEP 3
Pace vs STLY
On-the-books by stay date vs same time last year, pickup curves and compression dates (sold out ≥ 21 days out).

STEP 4
Channel cost analysis
12 months of PMS production and OTA invoices → cost per room night, net ADR and net RevPAR by channel.

Assumptions. € impacts are mid-case annual estimates, net of distribution cost, and calculated sequentially so overlapping fixes are not double-counted (range €62–104k). Displacement of existing business is netted out where a fix adds volume.

How I can help

ONE-OFF
Revenue & OTA Audit
This report for your hotel: extranet review, rate shop, pace and channel-cost analysis and a prioritised fix list — in two weeks.

30 DAYS
Implementation sprint
I make the critical and high fixes directly in your extranets and channel manager, with before/after tracking.

ONGOING
Monthly revenue management
Daily pricing, weekly pace and pickup review, and a monthly Power BI report on RGI, net RevPAR and channel mix.
